Dear Sir/Madam,

On March 2, 1982, the registration certificate issued for the above-referenced mark. The registrant encloses the original certificate herewith. The registrant wishes to amend the registration as follows:

RELOCATION RESOURCES INTERNATIONAL

The registrant submits a new drawing herewith and submits a specimen showing the amended form of the mark as currently in use with the services as stated in the original registration.

The registrant believes it is entitled to amend the registration for the following reasons:

As stated in TMEP Section 1607.02, "trademarks do not exist in a static environment. ... Registrants therefore frequently find that, subsequent to the time a mark is registered, the form of the mark is modified and the mark is no longer in use in exactly the same form as is shown in the registration." In this case, the scope of the registrant's business has expanded since the original registration of the registrant's mark was obtained in 1982. In 1997 the registrant formally changed its corporate name to Relocation Resources International, Inc., and since that time the registrant has changed its mark to RELOCATION RESOURCES INTERNATIONAL to reflect the broadened scope of the services which it provides under the mark.
